	5. The late Mr J. N Tata proposed to open an experimental Silk Farm at Bangalore. Govt in their order No 6720-2/R 3145 (21/3/22) granted him about 17 acres of land free of assessment for 15 years for the purpose. Mr Tata opened the Farm. In 1906 Govt sanctioned an annual grant of Rs 3000 to the Farm. Messrs Tata & Sons handed over the management of the Farm to the Salvation Army in 1909. Govt sanctioned the continuance of the annual grant of Rs 3000 to the Salvation Army together with rent free use of the land originally given for the farm (Vide. GO No 4992-6/Govt 446-08 dt 10/12/1909)

NOTE—Contn sheet

Serial No

Wdr Booth Tucker of the Salvation Army applied for building grant to Govt to enable the Salvation Army to put up addl buildings in connection with the Farm in April 1910 but Govt declined to grant any further aid than that already given (Vide No 1763/Wdr 33-10 of 22/8/10)

to Govt

Wdr org 33 18/7/11 (secy)

Wdr 13 7 11

The lands now constituting the farm appear to have been acquired at a cost of nearly 7000 Rs & the annual assessment on them viz 28-4 Rs has been remitted till now.

The buildings & machinery etc on the farm were valued a couple of years ago at 9450 Rs & these have apparently been presented to the Salvation Army by Messrs Tata

If the lands are permanently

IV

R. O. No 249 of 1910-11.

We do not know on what terms Messrs Tata and Sons have handed over the Sericultural Farm to the Salvation Army The grant-in-aid of Rs 3,000/- per annum which was given to Messrs Tata and Sons was continued temporarily to the latter on certain conditions in Government Order No 4992-6/Edn 44-08 dated 10th December 1909 It has yet to be seen how far the purposes for which this grant-in-aid was promised are likely to be fulfilled by the Salvation Army The communication from the Inspector General of Education would seem to imply that our object is not capable of achievement and that the Salvation Army would like to materially alter the nature and scope of their

Serial No

15 I ~~in~~ inspected this farm yesterday & a few particulars that I noted are ~~given~~ given in the sheets pasted below

16 Except engaging labourers locally, there is no particular attempt to enlighten any of the men of the Country engaged in the work The object of the 'Army' is apparently to run a self-supporting industry & there is likely to be no benefit to any one in all-gore except such as the opening of any new Commercial undertaking in the place is likely to bring. It is therefore a question whether any grant or other bonus can be given legitimately from the public funds

17 The farm has I am told some $14\frac{21}{40}$ acres, and the annual assessment is Rs $6\frac{1}{2}$

Note—Contn sheet

GPB-55000-7 4 10

If they put up buildings we may continue the rent free tenure for a definite period, say 20 or 25 years But I think we should make them understand definitely that they should NOT expect the grant to be continued beyond 3 years. Since they appear to have made up their minds that the indigenous men are unfit to do reeling work, it is hardly worth while to subsidise them for teaching men (whom they take only as coolies) to grow mulberry & rear worms. On the growth of mulberry at any rate our Village ryots can as far as I can judge give points to the men of

GPB—50 00 —12 8 10

Submitted to His Highness

I submit herewith certain papers regarding the Salvation Army being permitted to erect new buildings on the Silk Farm, Bangalore The Inspector General of Education in his D O. of the 1st February 1911 has suggested that Commissioner Booth Tucker may be informed that the ground will be given to the Salvation Army as soon as they have put up additional buildings equal in cost to the value of the ground or a definite assurance given that the site will not be resumed so long as it is used for its present purpose

2. An account of the work done by the Army till now in connection with the Silk Farm is given in the Inspector General's official letter of the 21st June 1911

3 From his note dated 8th April 1911 on the file, the Second Councillor seems to be not quite satisfied with the work done by the Army at the Farm, but he has no objection to an assurance being given that so long as the objects mentioned in the original Government Order are fulfilled, the Government will not

resume the land

4 I submit the papers for orders I am of opinion that the assurance asked for by the Salvation Army may be given If the land has at any time to be resumed, the resumption may take the form of the Salvation Army being required only to pay the value of the land (calculated at the market value of the land in the neighbourhood), but not of the buildings thereon, and the whole property including land and buildings being transferred to the Salvation Army.

Office of the Inspector General of Education
in Mysore, Bangalore, 1st February 1911.

33-10 9-5663
Edn 2[illegible]

Dear Sir,

When Commissioner Booth Tucker was in Bangalore last week he called on me and informed me of his present opinion of the Silk Farm which he has arrived at as the result of the experience of the past year His main conclusions are briefly as follow -

1 Cultivation of the mulberry for the rearing of silk worms is essentially a cottage industry it will not pay to grow the mulberry on a large scale with hired labour but it can be grown profitably by the small landholder with the assistance of his family

The Salvation Army therefore do not intend to make any effort to increase their present holding but propose to devote their attention to encouraging the ryots to improve the cultivation of the mulberry and the rearing of the silk worm.

2 Reeling of silk thread, on the other hand, if conducted as a cottage industry will not pay At least the silk produced in this way will not fetch the higher price of the European market Very severe tests as to quality and uniformity are applied in Europe before the silk can be sold at the higher rates But this uniformity can be attained only by strict and skilled supervision while the silk is being reeled The individual workman working in his own home can not be trusted to take the necessary trouble and he must be contented with the lower price. The Salvation Army therefore propose to discourage silk reeling as a cottage industry and to develop the reeling department at the silk farm

3 At present there are ten reeling basins at the farm and in the same building ten additional basins are being fitted up But the Overseer who superintends the work of ten or twenty reelers can quite well superintend forty, fifty or sixty reelers The present output can be considerably increased without increasing

2

the expense of supervision On its present basis the institution can never be self supporting If it is to become self supporting additional basins must be provided

4 This involves additional buildings But Government has intimated to Mr Booth Tucker that it is not prepared to provide additional funds for buildings and the Salvation Army must therefore look to its friends and supporters for the necessary funds But it is objectionable to put up buildings on government land which is liable to be resumed at any time, and it is anticipated that there will be difficulty in raising the money on these terms Commissioner Booth Tucker therefore proposes that Government should give the land to the Salvation Army

5. It seems pretty certain that the institution can never be self supporting while operations are conducted on the present inadequate scale, and the sooner efforts are made to make it self supporting the better for every body concerned I would therefore suggest that Commissioner Booth Tucker be informed that the ground will be given to the Salvation Army as soon as they have put up additional buildings equal in cost to the value of the ground or a definite assurance given that the site will not be resumed so long as it is used for its present purpose

6 I think that a definite reply should be given to Commissioner Booth Tucker at an early date to enable him to make his arrangements

Yours faithfully,

J Wen

Inspector General.

Edn 33-10-7B

Revenue Commissioner's Office,

Dated Bangalore, 8th March 1911.

Dear Sir

With reference to your D O No 1992 dated 7th March forwarding for my opinion copy of D O. dated 1st February 1911 received from the Inspector General of Education regarding certain proposals made by Commissioner Booth Tucker of the Salvation Army for increasing the usefulness of Tata's Silk Farm, I have to state that no references are available in my office to show what extent of land was originally acquired and how, on what conditions they were assigned to Tata's Silk Farm, nor are references available here to show the arrangements into which the Salvation Army entered into with the Tatas, if any, when taking over the Farm

3 From Government Order No 4992-o/Edn 44o-08-8 dated 10th December 1909 and the letters printed therein, I find that Mr F Booth Tucker in his letter dated 14th September 1909 stated thus - "It seems to me that the best plan would be to give us the present grant for say a period of two or three years, and also to allow us a free hand to make our own arrangements without tying us down to too many details, as we should desire largely to be guided by circumstances At the end of the period fixed, the whole position could be reconsidered by His Highness's Government , and such rearrangements made as might be considered desirable" And the Government accordingly ordered in para 2 of the above order that "the above arrangement will be tried as a temporary measure for 3 years" Now within the expiry of this period, if the Salvation Army wants further concessions, the question is likely to become very complicated and requires careful consideration So, before offering any opinion in the matter, I should like to have all the available papers which would throw light on the subject under consideration for reference, before I submit my reply

I am,
Yours sincerely,

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No 11130 / 818 Encl dispatch with a packet Bangalore, 21st June 1911

From

J WEIR, ESQ, M A,

Inspector General of Education in Mysore

To

C S Balasundaram Iyer, Esq, B A,

Offg Secretary to the Government of H H the Maharaja of Mysore, General and Revenue Departments, Bangalore

SIR,

With reference to your No 9031/Edn.33-10-8 dated 4th May 1911, I have the honour to inform you that the following progress has been made at the Silk Farm since it was taken over by the Salvation Army --

1 There were originally ten basins for reeling Silk An additional installation of ten basins is being fitted up in the same building and is almost completed

2 A new building has been erected for rearing Silk Worms and has been in use for several months

3 A Weaving Shed has been erected capable of accommodating 14 looms At present 4 looms are working and a fifth is being fitted up Silk and other materials are woven and the manufactured articles find a ready sale

4 Students' quarters have been erected capable of accommodating 12 students at a time

Up to the present date 14 students have completed their course They came from Travancore, Mahratta and Telugu Districts and Ceylon At present there are 2 students undergoing a course

of

of training, one from Travancore and one from Ceylon

Not more than 2 students can be taken at a time for the full course including instruction in reeling, as the number of basins is limited, but additional students can be taken for instruction in rearing Silk Worms

5 Mulberry cuttings are given away free of charge and several cart-loads have been given away locally

6 Seed-eggs are sold at the rate of one rupee per hundred layings, of about 200 eggs in each laying Eggs have been sold in Mysore and despatched to Gwalior, Baroda, Pusa and Monadabad

7 An attempt is being made to cultivate the Eri Silk Worm locally, At my suggestion some months ago the officer in charge placed himself in communication with the school masters who teach Sericulture in country schools He offered to supply castor-oil seeds but they said that seeds were available locally and that they would apply for eggs when the plants were ready One of the Masters has written recently to say that his plants are ready and a supply of eggs is awaited from Pusa

8 Up to the present date no students from Mysore have applied for admission, but there are from 25 to 30 boys and men regularly employed as wage-earners and when they leave the Farm they are fully qualified to start the rearing of Silk Worms on their own account

9 The Salvation Army can now sell as much Silk as they like to produce at Rs 12/- per pound If they can find the money they propose to increase the reeling department very considerably, but before they can attemot to find the money they think it necessary to be able to assure their subscribers that there is no risk of their buildings being confiscated, and in the meantime further expansion is stopped

In

In conclusion I have the honour to forward for inspection by Government specimens of the Silk produced and of the goods woven at the farm and to request that these be returned as soon as possible

I have the honour to be,
Sir,
Your most obedient servant,

Inspector General

T N R
